Within the warranty period, repairs can only be carried out by a dealer authorized by the manufacturer.

We recommend that our end customers have repairs carried out by our authorized dealers, even when the warranty period elapses.

Repairs to **safety-related** parts in the hydraulic, electric and mechanical systems **may only be carried out by authorized Terex dealers**.

Please use only **original TEREX spare** parts in your Terex machines. These are finished to a high quality and ensure the machine's safe operation and optimum service life. If original TEREX spare parts are not used, the warranty may be void.
